Name	Function in the project	Salary funded by	Funded up to	% of full time

## Planned reports

[illegible]

☐ This project includes animal experiments where ethical permit is required  
☐ Required permits are attached to this application

## Mats F. och Catharina Linde Forsbergs stiftelse

*The Mats F. and Catharina Linde Forsberg Foundation was founded in 2020 by Catharina Linde Forsberg and Mats Forsberg with the aim of promoting scientific research, mainly regarding dog and domestic cat reproduction but also ethology and diseases related to reproduction in dogs and domestic cats.*

Grants are given from the current net return for the above-mentioned research in Sweden, Finland, Norway and Denmark after the application has been approved. Grants are not given for salary.

The applicant is obliged to submit a final report to the Foundation with an account of the completion and publication of the work as well as a financial report. These are to be sent by e-mail to: [sekreterare@lindeforsbergsstiftelse.se](mailto:sekreterare@lindeforsbergsstiftelse.se)

When contacting the foundation, the project number must always be stated.

### **The last day to apply is February 15.**

The applications will be assessed by an evaluation group with skills and solid knowledge in veterinary medicine and dog and cat reproduction. The evaluation group submits proposals to the Foundation's board, which decides which projects are to be approved grants. Granted funds will be paid from the month of June.

*Applications received after February 15 will not be processed.*
